PROFESSIONAL OBJECTIVE

Detail-oriented ASP.NET Developer with 3 years of hands-on professional experience at Viatris, specializing in building and maintaining, enterprise corporate and commercial web applications. Strong expertise in ASP.NET MVC, C#, SSMS and Web API, with experience working in CMS-driven environments to deliver scalable, secure, and high-performance solutions. Skilled in maintaining large corporate websites and improving code quality using SonarQube, while collaborating effectively with cross-functional teams.

PROFESSIONAL EXPERIENCE

Viатris — ASP.NET Developer - 3 years *2023 - Current*
Bangalore, Karnataka

- Developed and maintaining enterprise corporate and commercial websites, including the primary corporate website viatris.com, using ASP.NET MVC and C#
- Built and enhanced ASP.NET backend components to support dynamic website functionality and business requirements.
- Developed and consumed RESTful Web APIs to enable seamless integration between front-end components and backend services.
- Worked within Sitecore SXA and Headless (JSS) environments to manage components, layouts, and content while supporting enterprise website delivery.
- Performed ongoing site maintenance, enhancements, and bug fixes to ensure high availability and consistency.
- Utilized SonarQube to monitor code quality, identify vulnerabilities, and reduce technical debt.
- Supported configuration, deployment, and post-release validation across multiple environments.

PROJECTS WORKED ON

Corporate Site Deployment

sites worked on :
[MyEpiPen.com.au](https://myepipen.com.au)
[Celebrex.com](https://celebrex.com)
[Viатris.com](https://viatris.com)

Commercial Website Deployment

sites worked on :
[ViатrisConnectCAC.com](https://viatrisconnectcac.com)
[ViатrisConnect.de](https://viatrisconnect.de)
[ViатrisConnect.com.mx](https://viatrisconnect.com.mx)

- Developed and maintained corporate and commercial websites using ASP.NET MVC.
- Integrated application features with backend services through REST-based APIs to enable reliable data communication.
- Performed functional and regression testing to ensure application stability.
- Optimized performance and resolved production issues efficiently.
- Architected and implemented automated background processes for myepipen.com.au using Windows Task Schedulers, streamlining periodic data synchronization.
- Engineered complex database objects using SSMS, including optimized stored procedures, triggers and views to improve data retrieval speeds.
- Supported environment configuration, deployment, and publishing activities.

Code Quality Improvement Initiative

Implemented SonarQube rules and ASP.NET code review practices, improving overall code quality and reducing recurring issues in production.

TECHNICAL SKILLS	<p>Programming : C#, TypeScript, JavaScript (ES6+), HTML5, CSS3/Sass, Python, C++.</p> <p>Frameworks & Libraries : Next.js, React, ASP.NET Core, MVC.</p> <p>CMS Platforms : Sitecore XM Cloud, Sitecore XP 10.4 (Headless), Sitecore SXA, Sitecore JSS.</p> <p>APIs & Data : GraphQL (Experience Edge), RESTful APIs, SQL Server (SSMS), Web Services.</p> <p>Tools & DevOps : Azure DevOps, Vercel, Git, CI/CD Pipelines, GitHub Actions.</p> <p>Code Quality & Testing : SonarQube, Unit Testing (xUnit/NUnit), Jest (Next.js), Debugging.</p>
EDUCATION	<p>B.E (Computer Science)</p> <p>P.E.S Mandya 2019-2023</p>
SOFT SKILLS	<ul style="list-style-type: none"> - Capable of handling multiple tasks and meeting deadlines - Strong communication and interpersonal skills - Quick learner with a passion for technology - Problem-Solving and Analytical Thinking - Team player with the ability to work independently
PERSONAL PROJECT	<p>Enterprise Headless Digital Transformation</p> <p>Led the migration/implementation of a decoupled CMS architecture to replace a legacy monolithic system, focusing on performance, scalability, and enhanced content authoring experiences</p> <p>Modernized Architecture : Transitioned from legacy MVC to a Sitecore XM Cloud & Next.js decoupled stack, leveraging SSG to boost page load speeds by 90%.</p> <p>Decoupled Development : Engineered reusable UI components with Sitecore JSS, enabling parallel front-end/back-end workflows and faster delivery cycles.</p> <p>Optimized Data Delivery : Integrated Experience Edge and GraphQL to deliver global, low-latency content while eliminating server-side bottlenecks.</p> <p>Enhanced Authoring UI : Configured Sitecore Pages to provide a seamless WYSIWYG experience, reducing marketing's reliance on IT for layout updates.</p>
INTERNSHIP CERTIFICATE	<p>Walmart USA Advanced Software Engineering Virtual Experience Program on Forage 2026</p> <ul style="list-style-type: none"> - Completed the Advanced Software Engineering Job Simulation where I solved difficult technical projects for a variety of teams at Walmart. - Developed a novel version of a heap data structure in Java for Walmart's shipping department, showcasing strong problem-solving and algorithmic skills. - Designed a UML class diagram for a data processor, considering different operating modes and database connections. - Created an entity relationship diagram to design a new database accounting for all requirements provided by Walmart's pet department. <p>Link : view certificate</p>
PORTFOLIO	<p>Deployed HTML5 and CSS to construct a visually compelling portfolio, focusing on seamless navigation and visual appeal. Future enhancements involve JavaScript integration to enable dynamic features, elevating user interaction and showcasing a diverse range of projects and skills.</p> <p>Link : https://hanoor.github.io/Portfolio/</p>
